

Hamad Ahmad Scholarship in Chemical Engineering

JUNE 2023

HAMAD AHMAD

Honouring Hamad

Caring donors like you help our students thrive. The Hamad Ahmad Scholarship in Chemical Engineering was established in 2019 by the Ahmad family, as well as other family and friends to honour the memory of Hamad while empowering chemical engineering students to achieve their dreams.

This endowed fund recognizes promising students who want to better the field of chemical engineering today, and for many years to come. Thank you for celebrating Hamad's memory by supporting tomorrow's leaders in applied sciences. We're pleased to share this update on how your gift is making a difference as we work together to advance healthy lives.

Award description

Scholarships have been made available through an endowment established by friends and family in memory of Hamad Ahmad (B.A.Sc. 2007) for undergraduate chemical engineering students who demonstrate academic excellence. The scholarships are made on the recommendation of the Department of Chemical and Biological Engineering. (First award available for the 2019/2020 winter session).
